Careers at S&C Electric Canada Ltd.

POSITION: **Millwright**
LOCATION: 90 Belfield Rd, Toronto, ON
POSTING#: HR17-18
STATUS: Full Time

Why Work for S&C Electric Canada Ltd.

Integrity, enthusiasm, sustained energy. These are the traits that S&C has always looked for and found when seeking people to join our team. S&C supports these qualities with a strong package of pay and benefits including a defined benefit pension plan, Success Sharing (bonus) plan, 3 weeks' vacation, paid holiday shutdown, flexible benefit options, seniority recognition program, employee assistance program, excellent education and training programs, a challenging work environment, and broad opportunities for advancement.

Job Summary

We currently have an opportunity for a Millwright. The successful candidate will report to the Manager- Facilities Maintenance and will be responsible for maintaining our facilities, production machinery, and process systems.

Core Responsibilities

- Perform necessary mechanical, hydraulic and pneumatic repairs, modifications and/or adjustments of all production equipment, as required so that quality parts are produced and the production equipment availability goal is maintained
- Implement and maintain preventative maintenance of all production equipment, including punch presses
- Repair and monitor compressors and ensure the compressor room is kept clean and free of debris
- Install and arrange mechanical equipment as required
- Complete routine paperwork as required and ensure the proper labeling of equipment
- Perform work in their skill area such as fabrication, welding, assembly, cutting, burning and pipefitting using proper techniques and applicable tools
- Diagnose complex equipment failures and provide solutions such as dismantle, repair and reassemble etc. in a timely manner to ensure minimal interruption to production
- Work from drawings, verbal instructions or sketches to meet intent goals
- Responsible to maintain good housekeeping on work area and machine parts
- Ensure compliance with all applicable codes, standards and legislation including Environmental Legislation, O. Reg 851 for Industrial Establishments, and the Occupational Health and Safety Act (with emphasis on Section 28, (1) (a)-(d), (2) (a)-(c)).

Qualifications

- 1-3 years of experience in similar role
- Ability to work independently and draw from experience with minimal supervision
- Ability to problem solve and follow standardized practices and procedures
- Mechanical aptitude; thorough knowledge of machine print reading and interpretation
- Working towards the Millwright Certification of Qualification (CofQ)
