

Instructions: How to Install and Create an Instagram Account

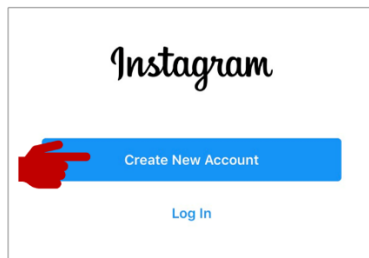

1. Install the Instagram app from the **App Store (iPhone)** or **Google Play Store (Android)** from your smartphone.

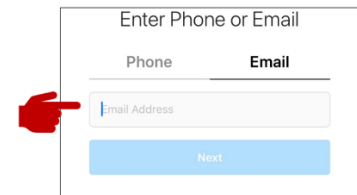

2. Once the app is installed, tap **Instagram** to open it.

3. Tap **Create New Account**

4. Enter your **email address** or **phone number**. If you enter your **phone number**, you will receive a **confirmation code**; follow the instructions that you receive via text message. **Tap Next.**

5. Create a **username** and **password**, fill out your profile information (Name, Birthday, etc) and then **tap Next.**

6. If you signed up using your **email address**, you will receive an email from Instagram to confirm your account. **Check your email and follow the instructions** to complete the process.

Bonus Instructions: How to Set Your Instagram Account to Private

A private account ensures that only approved followers can see the content you post on your profile.

1. Click on the three horizontal lines at the top right of the screen

2. Click on PRIVACY

3. Click on ACCOUNT PRIVACY

4. Click on the slider button to set it to a PRIVATE ACCOUNT

The screenshots show the following steps:

- Clicking the hamburger menu icon in the top right corner of the profile page.
- Clicking the 'Privacy' option in the menu.
- Clicking 'Account Privacy' in the 'Connections' section.
- Turning the 'Private Account' toggle switch on.
