Maximum Peak Let-Through Current Curves

Fault Fiter Electronic Fuses rated 4.16 and 13.8 kV

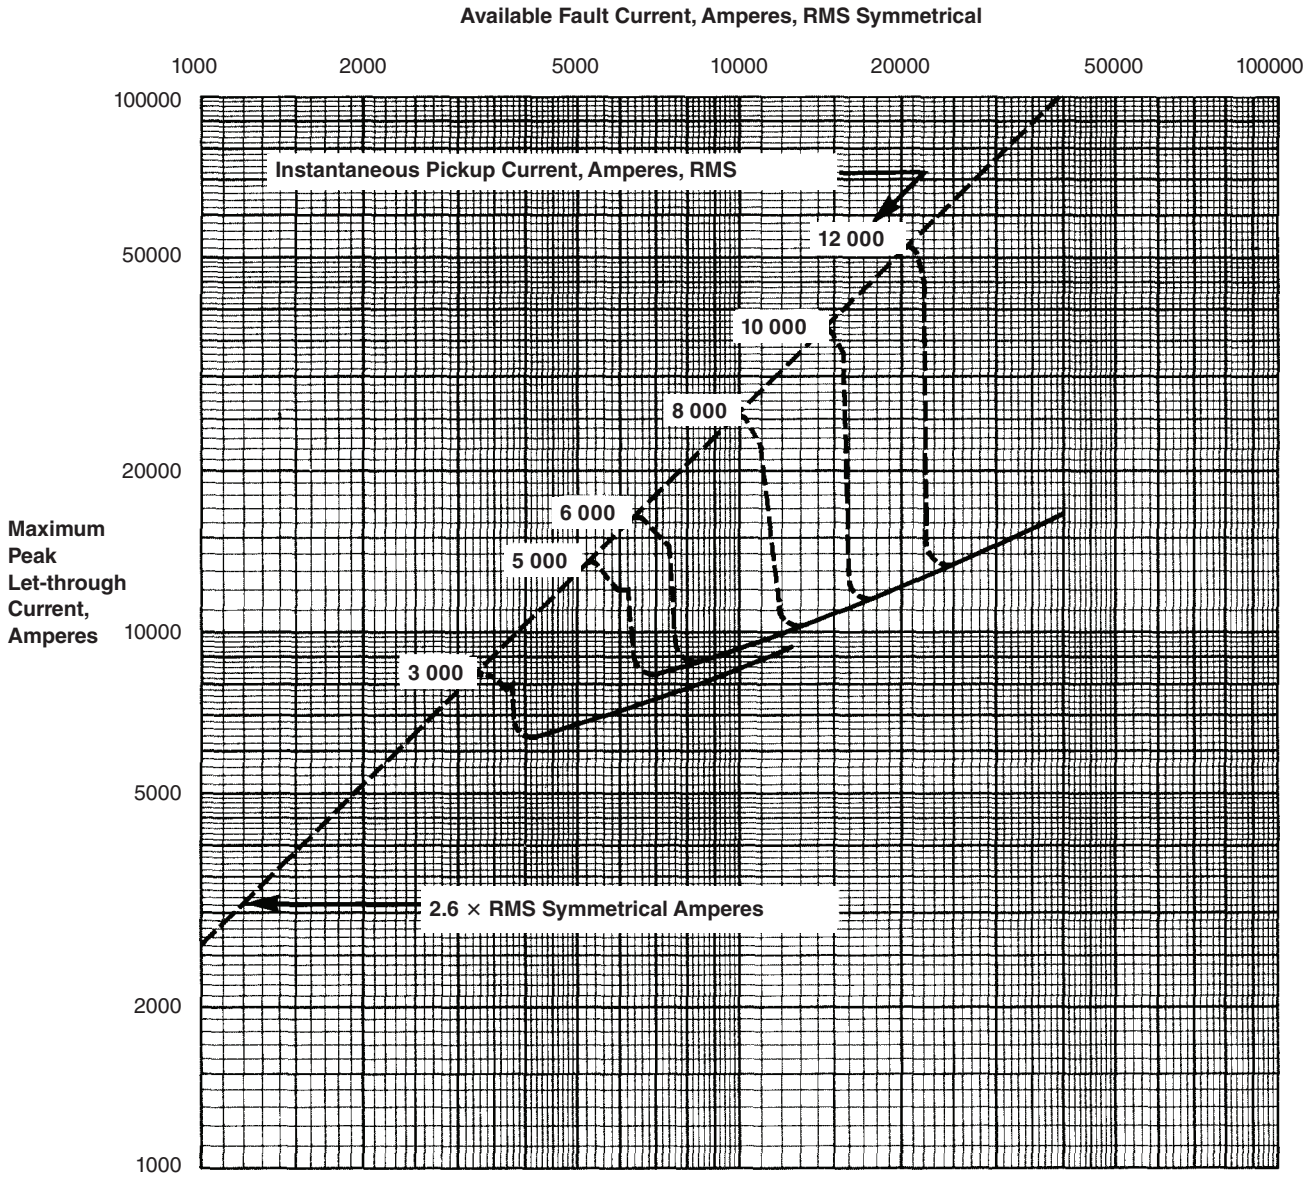

Note: The maximum peak let-through current curves shown are based on the full spectrum of circuit X/R ratios from 3 through 20, and all degrees of symmetry.

Supersedes Data Sheet 440-205 dated March 13, 1989

Fault Fiter Electronic Fuses rated 25 kV

Note: The maximum peak let-through current curves shown are based on the full spectrum of circuit X/R ratios from 3 through 20, and all degrees of asymmetry.
